Use your power as a California citizen!

Vote YES on Prop 50.

“Every Texan deserves fair representation — because in a democracy, voters pick their leaders, not the other way around..”

Oni Blair, executive director of the ACLU of Texas

Trump and MAGA are driving a national redistricting effort to grab more Republican seats in the House and stay in power as long as possible. Texas Gov Abbott has already fallen in line despite strong objections from Democrats in the Texas legislature and opposition from state citizens. **Texas redistricting will likely add five more House seats to the GOP.** Changes in California districting enabled by Prop 50 would be proportional to the gains from the Texas move. More states including Missouri, Florida, Ohio, and Indiana, have been targeted by MAGA for partisan redistricting.

This blatant power grab by Republicans will silence Americans nationwide. It could keep MAGA Republicans and their agenda in place for years to come. Polling shows that most Americans do not approve of the MAGA agenda.

We must take action now. The MAGA bully regime wants to seize permanent power through election rigging. Proposition 50, the Election Rigging Response Act, will help to counter the MAGA redistricting power grab.

What you need to know:

- Unlike Texas, Prop 50 gives California citizens the power to decide by *asking them to vote on Prop 50*. Republican legislators in Texas *didn't ask*.
- Prop 50 is temporary. It is an emergency response to the MAGA power grab.
- Voting yes will even the playing field so that every voter has a voice. Politicians cannot be allowed to decide who gets to vote.
